ABOUT US

Our company started its commercial life in 1990 and was established to operate in the field of infrastructure and superstructure construction contracting. Our company, whose founding members and partners consist of civil engineers, mechanical engineers and architects who are experts in their fields, has strengthened its position in the sector by adopting the concepts of quality service, honesty and occupational safety as the basic principle since the day it was founded.

In order to provide price advantage in its developing machinery park and workload, it operates as an Opet dealer with the fuel company it established under the name of May Petrol Enerji İnş San ve Tic A.Ş. (May Petrol Energy Construction and Trade INC.)

SIRAÇ İNŞAAT A.Ş (SIRAÇ CONSTRUCTION INC.) has successfully concluded mass housing, gendarmerie company buildings, schools, nursing home, state hospital in the superstructure, in infrastructure, chimney and grill works, asphalt works, (bsk) bitumen hot mix construction and repair projects in highways, electricity, water, gas, and telephone lines to various institutions, organizations and private sector in accordance with the rules of science and art.

OUR VISION

Our vision is to be a company that contributes to the development and welfare of societies, and that all individuals and organizations that are in contact with the sectors trust, respect and want to work with, while moving forward in harmony with the universal conditions of our age.

OUR MISSION

To be a dynamic, developing organization that respects the environment, always prioritizes health and safety, ensures quality and durability, aims to achieve excellence by increasing customer satisfaction, and maintains reliability.
